

FALL TERM TO OPEN

SEPTEMBER 15 SEES BIG STATE SCHOOL AT WORK.

SEES NEED OF HOUSES

President Richardson Says Maryville is Losing Desirable Citizens From Lack of Residences.

The fall term of the Normal will open on Monday, September 15, and the prospects are fine for a big enrollment. Next week many of the teachers of the Normal will visit several of the counties in the Normal district to do field work.

The school has had a good growth during the past year, and 782 young men and women have been enrolled in the institution and 151 children have participated in the opportunities of its training school.

President Ira Richardson of the school says that Maryville must do something to relieve the rented house situation. In talking of the matter, he says:

"It is to be regretted that there are no more comfortable and convenient homes to be found for rent in our city at reasonable rates, because a number of families have been desirous of moving to Maryville to educate their children, but could find no comfortable quarters in which to live. We must solve some of these problems if we do our part in the growth and development of the school. Parents will not send their sons and daughters to places where adequate and comfortable means of living cannot be secured."

President Richardson, in talking of the Normal, says:

"The normal school is a state school whose function is expressed in the statutes of the state of Missouri, viz: 'To prepare young men and women to become competent teachers of the schools of the state.' The normal school is therefore justified in its existence as a distinct type of education insofar as it gives individuals a more largely increased ability to direct the education of the children. To do this it must concern itself with questions of academic and professional scholarship and training. It is a state school and therefore is concerned with the problems which enable it to render service to the state, and while it is allotted a certain district and located in a certain place, yet its field for service cannot be thought of as being limited by these boundaries. As an institution it must render efficient service to the teacher and to the school, and likewise the home, with its occupants, and the communities in which they live must be kept constantly in mind. The normal school must be a leader in public education and forecast its future. It must give qualities of culture as well as efficiency in technical training. In the immediate field of education its problems have to do with rural, elementary and secondary instruction and organization. It must train individuals to solve problems in these various fields. It now has too few individuals prepared to meet these problems whom it can recommend for positions in various places. It is a school of college grade and the central part of its work is that part of its work which is college grade. It maintains secondary school courses of instruction to meet the demands placed upon it by individuals from communities having the limited high school opportunities. The normal school also maintains an elementary school designated as its training school. This division is a typical elementary school consisting of kindergarten and the usual eight grades found in our public schools. This school serves as a basis for the study of the problems of child development and also as a laboratory in which our seniors are given their training in the details of handling school activities. The training school will open for its regular session on Tuesday, September 16. Children and parents who wish to confer about enrollment of their children may do so on Monday, the 15th. Applications for places in the several grades of the training school are now being received. Places will be allotted in the order of their reception until the quota for each grade is full. There is no tuition in the training school, and we offer exceptional advantages for the instruction and development of children. The welfare of the child is our constant point of view, and their work is carefully supervised in every particular."

"A number of requests have been received from young men and women who wish opportunities for work during their attendance at school in order

to defray a part or all of their expenses of living while here. If there are citizens of our town who have work or who can supply work to individuals of this type they will confer a favor upon these young men and women by letting me know about it at once.

"The teaching profession is offering greater opportunities today than ever before to young men and women who are prepared to render efficient service in the school room.

"It is the desire of the management of the school to co-operate in every way possible with the different institutions and organizations of the city of Maryville in order to render the most efficient service possible in any commendable line of advancement or civic development. We invite the acquaintance of every resident of Maryville. Your presence will be welcome in our class rooms from time to time, and we shall be glad to have visitors inspect the various phases of our work."

CONFERENCE MEETS WEDNESDAY.

County Pastors of M. E. Church, South, to Journey to St. Charles, Mo., For Occasion.

The annual Missouri conference of the Southern Methodist church, which embraces the St. Joseph district and comprises 212 members, will convene at St. Charles, Mo., on Wednesday.

Rev. J. D. Randolph, pastor of the Buchanan Street Methodist church, will leave Wednesday morning for the conference, and the other ministers of that church in this county will also probably leave at the same time. There are only four other ministers in the county, and they are Rev. S. E. Hoover of Ravenwood and Guilford churches; Rev. J. F. Patton of the Skidmore charge; Rev. M. Dewitt of Barnard and Wilcox, and Rev. Holliday of Elmo.

It is not likely that there will be any change in the pulpits in this city or in the county, as the pastors have not served the maximum of four years here.

Rev. Randolph has been pastor of the Maryville church one year, and during that time the church has made progress. There has been an addition of twenty members during that time, and the church has raised \$2,400 to pay the current expenses. During Rev. Randolph's absence next Sunday the pulpits of the church, both morning and evening, will be occupied by Dr. R. E. Hamilton of this city.

TO BUILD A ROUND BARN.

Fred Curfman, Living East of Maryville, Began Work on New Barn For His Farm.

A round barn which is to be a complete circle and fifty-four feet in diameter, is to be built on Fred Curfman's farm, east of Maryville. The foundation is already in and the work of constructing the barn will be under the direction of Contractor Benton Steele of Halstead, Kan. The round barn is said to be more practical than the square or rectangle barns. This new barn will be the first one of its kind in this section of the country.

ALFRED E. BROWN.

Swam From the Battery to Sandy Hook, Establishing Right to Championship.

By swimming from the Battery, in New York, to Sandy Hook, a distance of twenty-two miles, in thirteen hours and thirty-eight minutes Commodore Alfred E. Brown of the American Life Saving society has established his right as the champion swimmer of America. Scores of attempts have been made by the best swimmers in the east to perform this feat, and Commodore Brown has made previous efforts, but this is the first time that it has been done. On his arrival at Sandy Hook the swimmer, who was numb with cold, said that he felt no ill effects. He is shown in the picture with his little daughter.

MULES THE BEST

CARRIERS SAY THEY ARE MORE SATISFACTORY THAN AUTOS.

FAVOR GOVERNMENT AID

Carriers Adopt Resolutions and Elect Officers—St. Joseph Next Place of Meeting.

At the rural carriers' meeting of the Fourth congressional district, held in Maryville on Monday, it was generally agreed by those who have tried them that a span of Missouri mules will give better satisfaction than an automobile or motorcycle as a means of transportation. Other carriers' problems were discussed, such as the government should equip the carriers better, and that the postmaster and carriers work together and more efficient service can be secured.

It was also agreed by the association that the rural carriers should be on the same basis as city carrier or railway clerk. As it is now the rural carriers have no chance of promotion. The officers elected for the coming year were:

President—S. S. Browne, Hopkins. Vice Presidents—Andrew, M. C. Wachtel, Savannah; Atchison, O. H. Anderman, Rock Port; Buchanan, G. S. Daughters, St. Joseph; DeKalb, Oliver Wright, Union Star; Holt, Fred Landers, Forest City; Nodaway, Sheridan Graves, Burlington Junction. Secretary-treasurer—O. G. Null of Pickering.

The next meeting of the association will be held at St. Joseph on February 22, 1914.

The association has now forty-eight members, twenty-four of them being from Nodaway county. There were eight new members that joined the association at this meeting.

The Resolutions.

We, your committee on resolutions, beg leave to submit the following report:

Be it resolved by the rural carriers of the Fourth congressional district of Missouri, that owing to the increase of work occasioned by the parcel post, we ask an allowance for maintenance of equipment.

That we ask congress to give the postmaster general authority to abate the so-called "penny" nuisance.

That the association adopt the slogan "Every carrier in the district" and all carriers work to obtain that result.

That we favor government aid in improving and maintaining roads used for rural routes.

That the association express our thanks to the rural carriers of Maryville for their excellent arrangements for the meeting of the association.

That our thanks are due the county court for the use of the court house.

That we express our thanks to the Commercial club of Maryville for the welcome given by their secretary, John I. Hoffman.

That we express our appreciation of the efficient manner in which the officers of this association have fulfilled their duties.

Respectfully,
G. S. DAUGHTERS.
O. G. SPARKS.
B. A. BONEWITZ.

CRIMINAL CARELESSNESS.

Lighted Cigar Stub Causes Flame That Might Have Made Disastrous Blaze.

A thoughtless man threw away his cigar stub about 8 o'clock last night without taking any precautions to extinguish it or throw it into the street. It fell into the yard of Mrs. Winfield Scott on West Seventh street. A moment later the grass was in a blaze and the fire was spreading rapidly. A man passing in an automobile saw the fire, got out of his car and stamped out the flames.

With everything as dry as tinder the flames from such a fire might easily spread to a building, and what might have been a serious fire was put out because a thoughtful man followed not far behind the thoughtless man.

This little incident should serve as a warning to the people of Maryville, for although Creston's big fire was started by a spark from a passing train, the depots at Conception and a house near Guilford burned from the same cause, and a barn near Hopkins set fire by a careless smoker, people seemingly pay no heed until a similar example is brought home to them.

Mr. and Mrs. Orloff Clark are at home at the Linville hotel after a week's honeymoon trip to St. Joseph, Kansas City, Excelsior Springs and Chillicothe.

LIST OF TEACHERS

COUNTY PEDAGOGUES—WHERE THEY GET MAIL.

THEY OUTNUMBER MEN

A Large Proportion of the Rural Teachers Are of the Female Persuasion—181 Districts.

The rural schools over the county opened Monday, but owing to the heat and dry weather, only a small number started in on that day. The following are the teachers of the rural schools of the county, with the district numbers where they are teaching and the nearest postoffice address of the school:

1. Austie Cowen, Sheridan.
2. Hazel Hook, Hopkins.
3. Bessie Dinsmore, Hopkins.
4. Bessie DeVore, Hopkins.
5. May Summers, Hopkins.
6. Effie Henderson, Hopkins.
7. Bertha Cross, Hopkins.
8. Nona Carothers, Braddyville, Ia.
9. Lila Lee Beaver, Braddyville, Ia.
10. Margaret Hopper, Elmo.
11. Blanche Williams, Elmo.
12. Frances Holliday, Clearmont.
13. Cora Carver, Elmo.
14. Lillian St. Clair, Clearmont.
15. Ruth Hobbs, Clearmont.
16. Bertha Knobel, Clearmont.
17. Bess Burch, Hopkins.
18. Lou Snodgrass, Hopkins.
19. Beulah Russell, Hopkins.
20. Hazel Olmsted, Hopkins.
21. Hattie Lawler, Sheridan.
22. Mrs. Myrtle Pierce, Sheridan.
23. Edna Stoner, Sheridan.
24. Dora Smith, Sheridan.
25. Ada Walter, Parnell.
26. Bessie Nicholson, Hopkins.
27. Grace M. Lewis, Hopkins.
28. Chloe Busby, Hopkins.
29. Grace Robbins, Hopkins.
30. Jennie Ringgold, Hopkins.
31. Veronica O'Grady, Maryville.
32. Nettie Jensen, Clearmont.
33. Mayme E. Burks, Elmo.
34. Ethel Tibbets, Burlington Junction.
35. Otto Riley, Elmo.
36. Fay Bailey, Elmo.
37. Naomi Horn, Burlington Junction.
38. Edith Davenport, Burlington Junction.
39. Stella Hurst, Burlington Junction.
40. Bessie Brown, Burlington Junction.
41. Mary B. Carter, Clearmont.
42. Jennie Pugh, Burlington Junction.
43. Maude Whitehead, Maryville.
44. W. H. Burr, Maryville.
45. Agnes Handley, Pickering.
46. Jas. L. Clayton, Pickering.
47. Harry Clayton, Pickering.
48. Elva Heffin, Parnell.
49. Dollie Dinsmore, Parnell.
50. Jas. M. Hook, Sheridan.
51. Helen Matteson, Parnell.
52. Mary Cain, Parnell.
53. Eugenia Lawler, Sheridan.
54. Alma Coffelt, Ravenwood.
55. Clemma McGuire, Maryville.
56. Maude Marquis, Pickering.
57. Rachel Watson, Maryville.
58. Byron Hanna, Maryville.
59. Hazel McCombs, Burlington Junction.
60. Helen Hollis, Burlington Junction.
61. Mabel Carver, Burlington Junction.
62. Vesper Nicholas, Burlington Junction.
63. Ora Willcox, Clearmont.
64. Gertrude Peters, Burlington Junction.
65. Ethel Gillinger, Quitman.
66. Edith Collins, Skidmore.
67. Maybird Carver, Burlington Junction.
68. Verda M. Garrett, Maryville.
69. Maude McCombs, Burlington Junction.
70. May Davis, Wilcox.
71. Nellie Halasey, Maryville.
72. Grace Fisher, Maryville.
73. Golda Roach, Maryville.
74. Mary Fordyce, Maryville.
75. Cecile Fisher, Maryville.
76. Nellie McKnight, Maryville.
77. Maude Evans, Ravenwood.
78. Blanche Bloomfield, Parnell.
79. Catherine Sweeney, Ravenwood.
80. Martin Farrell, Parnell.
81. Leland Richards, Ravenwood.
82. Rosemary Bishop, Ravenwood.
83. Blanche Rimel, Ravenwood.
84. Neve B. Noland, Ravenwood.
85. Vera Wells, Ravenwood.
86. Roxie McGinness, Maryville.
87. Mabel Graham, Maryville.
88. Eva Whitehead, Maryville.
89. Luta Moody, Maryville.
90. C. C. Vickery, Arkoe.
91. Dollie Hughbanks, Quitman.
92. John Davis, Quitman.
93. Chloe Davis, Quitman.
94. Anna Craytor, Quitman.
95. Hazel Hart, Skidmore.
96. Eugene Larmer, Quitman.
97. Elsie Alkire, Skidmore.
98. Nita Strickler, Skidmore.
99. Ruby Key, Skidmore.
100. Laura Walton, Quitman.
101. Myrtle Brown, Maryville.
102. Hattie Hall, Maryville.
103. Mary Watson, Maryville.
104. Ruby Ruddell, Maryville.
105. Katie McCaffrey, Maryville.
106. Margaret Heffern, Maryville.
107. Elsie V. Smith, Bedison.
108. Mary Allen, Clyde.
109. Edith Marsh, Maryville.
110. Louise McCann, Ravenwood.
111. Robert Birbeck, Ravenwood.
112. Margaret McCann, Ravenwood.
113. Sr. M. Frances, Clyde.
114. Sr. M. Loretta, Clyde.
115. D. M. Feagans, Conception Jct.
116. Maude Winslow, Conception Jct.
117. Nona Donahue, Clyde.
118. Effie Richards, Clyde.
119. Gertrude Walter, Clyde.
120. Edith Wyatt, Barnard.
121. Edna Gray, Maryville.
122. Grace Pugh, Maryville.
123. Rose Shinabargar, Maryville.
124. Helen Hopley, Maryville.
125. Helen Hutt, Skidmore.
126. Lora Stultz, Skidmore.
127. Elizabeth Cook, Skidmore.
128. Bernice Cook, Skidmore.
129. Bertha Weller, Skidmore.
130. Wm. F. Winfre, Graham.
131. Carrie McClurg, Skidmore.
132. Alma Massie, Graham.
133. Zella Barton, Skidmore.
134. Bell Collins, Arkoe.
135. Josephine Keeler, Arkoe.

Is Seriously Sick.
Mrs. J. L. Alexander of near Pickering is seriously sick. Her daughter, Mrs. A. Adcock, and daughter of Denver, Col., arrived Tuesday, called by her mother's sickness.

THAW'S JAILER.

Boiserv Is Always Ready To Foil Any Attempt That May Be Made For Freedom.

Canadian authorities have taken every precaution to guard Harry Thaw while he is in jail at Sherbrooke. It was rumored that force would be used to free him. Thaw's lawyers are very hopeful now, however. Ex-Governor William A. Stone of Pennsylvania is quoted as saying, "Snow will be deep before Thaw says farewell to this city."

MAY BE SHUT OFF

FIRE PROTECTION WILL BE FIRST EFFORT OF BOARD.

DITCHING THE RIVER

Ice Famine Also Imminent—Until Further Supplies Are Received Resolved For Sickness.

It may be necessary to discontinue the water service entirely. Up to this afternoon, the water service has been off all day but it is expected that it will be turned on for a time this evening. But unless conditions are better soon, the service will be cut off for the entire day and enough saved for fire protection.

The board of public works is doing everything in its power to prevent such a situation, but it is working against long odds. In a meeting Monday night the board discussed the entire situation and decided that the only thing that could be done now was to make an effort to get the water from the pools up the river.

An extra force of men was put to work this morning ditching the river so that the water in these pools can be drained to the pumping station. As long as this method brings results there is some hope, but when the pools give out Maryville will be without water. A big rain is the only thing that will relieve the situation then.

The reservoir is being filled as rapidly as possible for fire protection, and it may become necessary to discontinue the water service for all other purposes; for if a fire once gained a headway here it would take all the water the reservoir could furnish to fight it with.

An ice famine is imminent too. Both ice companies quit delivering ice to the residences today. Only in cases of sickness will ice be delivered to the homes. Unless plenty of it can be shipped in soon, or enough water had with which to manufacture it the supply of ice here will scarcely furnish the needs of the meat shops, groceries and fountains down town.

William Everhart said this morning that he had just enough water in the reservoir of his ice plant to water his horses. If he could get water one hour in every six he could manufacture four or five tons of ice a day. He has 100 pounds of steam in his boilers ready to start the plant at any moment should he be able to get water. As it is he has had to send to St. Joseph for ice. He was able to get only one carload, which will not be here until Thursday night. This morning he had work started on deepening the well at his plant in an effort to get water. The well is 250 feet deep, but it did not supply water.

Harrison Brothers are equally as short on their supply of ice.

Other towns in this section of the country and in Kansas are as bad off as Maryville in regard to water supply. Some of these places have not enough for fire protection. Bedford, Ia., supply of well water is exhausted. Here's what Springfield, Mo., is doing:

Ward fire patrols are being organized by citizens, owing to the seriousness of the water shortage. In each ward a reserve water supply will be distributed at all residences, to be kept for fire protection only.

LIGHT PLANT TO OPERATE.

Manager of Plant Thinks He Can Keep Plant Going Even If Necessary to Haul Water.

C. C. Hellmers, manager of the light company, said this afternoon that he was almost certain the plant would not have to shut down. Their own wells have not yet given out, although Mr. Hellmers does not know how soon they will. Even then he thinks enough water can be hauled to run the plant at the very least from 5 p. m. until midnight. The street lighting service will first be discontinued if it is necessary to cut down the service at all. Something may come up suddenly that would stop the plant for a few hours, but the probability is that light and power service will be given every day and until midnight.

102 This Afternoon.
The government thermometer registered 102 at 2 o'clock this afternoon.

A marriage license was issued Tuesday to Frank W. Harvey and Gaye L. Lucas of Parnell.

THE WEATHER

Generally fair tonight and Wednesday; continued warm.

JEFFERSON CITY LETTER.

(From Democratic Press Bureau.)

The August statement shows cash to the amount of \$6,500,000 in Missouri's treasury. This, too, after most all the appropriations, except those for the public schools, made by the last legislature have been paid. This statement will be very gratifying to the average taxpayer, but rather painful to those Republican newspapers which have been talking about how a Democratic legislature bankrupted the treasury.

Missouri's treasury is enriched to the amount of about \$18,000 per month these days, thanks to a Democratic legislature, which broke up a bankers' trust by a law which permitted country banks to bid for state deposits. A much higher rate was secured as a result of this law.

Work on the new state capitol at Jefferson City is progressing nicely. The foundation will be finished within a month and bids for the superstructure will be let at once. It will be the most complete capitol building in the world and when it is finished the taxpayers will have forgotten full value for every dollar expended. Men of character, experience and integrity are on the job and there will not be graft to the extent of one penny when it is finished.

The success of his good roads days has inspired Governor Major to call a national meeting at St. Louis next November. Governors, congressmen and boosters from all sections will be invited. The governor hopes to secure practical support for a scheme for government aid on which he has been working for some time. He can see no reason why the government should spend hundreds of millions of dollars every year for battleships, coast defenses, colonies and other things in which the farmer has only a direct interest, and do nothing at all for the highways in which every citizen has a direct interest. He believes the way to remedy such a condition is to devise the right sort of plan, then bring such pressure to bear that congress will do for the home folks what it has been doing for outside interests all these years. The governor is a son of a farmer and earned his first money as a farm hand, hence his interest in better roads and other things of benefit to the farming class.

Let's see—wasn't there once a man named Hadley and a party called Republican in Missouri? Or have you been too busy boosting for the progressive policies of the present Democratic administration to waste thought on dead horses?

Sixty-two thousand dollars has been added to Missouri's revenues already by the corporation tax law passed by the last legislature. The amount will continue to grow. The automobile license law has brought in more than \$15,000 for the good roads fund thus far this year. The new law relating to bids for state deposits gives the people \$18,000 a month more than they received under the old law, while the utilities board has already earned \$26,000 above all its salaries and expenses. Facts like these are very disconcerting to those Republican editors who try to create the impression that everything is going out and nothing coming in as a result of the last legislature's work. The fact is, more money will be paid out for roads and schools under the present Democratic than under any other administration in all the history of the state. Better still, the tax rate will not be increased to the extent of one penny. It is a Democratic way in old Missouri.

BRIDGES ARE NEEDED.

Bond Issue, if Submitted, Should Be Adopted—The Money is Properly Safeguarded.

The proposition of a \$200,000 bond issue as a means of relieving our lamentable road and bridge conditions, and more particularly the bridges in the county, should meet with the approval of the voters of the county. As the bridge fund is now \$20,000 in the red there is no hope for many bridges to be built the coming year, or even after that, as the fund is not sufficient.

A bond issue is the only way to construct the many needed bridges.

Petitions are being circulated now over the county for signers, calling on the county court to set an election when the matter will be voted on. It only takes 100 signers, and it is said that that many signers have already been secured. The petitions will be presented to the court on next Wednesday, and the election day will then be selected.

Nodaway county voted on a bond issue of \$75,000 for roads and bridges on August 18, 1908. The proposition was badly defeated, the vote being 819 for the issue and 2,242 against. It takes a two-thirds majority for the proposition to carry.

The provisions of the law, in brief, are as follows: If the county court finds that the petitions as a whole contain the names of one hundred or more taxpaying citizens of the county, the court must order an election to be held in the county within forty-five days thereafter, for the purpose of submitting the proposition to the voters, and if two-thirds of all those voting at said election vote in favor of said proposition, it then becomes the duty of the court to issue the bonds and sell them from time to time as the money is needed. The bonds bear interest only after they are sold, and under the law cannot bear a greater rate of interest than 5 per cent, and one-twentieth of the total issue must be paid off each year. None can run longer than twenty years, and the county has the option to pay them all off or any part of them at any time they may desire.

The law further provides that the money derived from the sale of these bonds shall be placed in the county treasury in a special fund, to be used for permanent road improvement only, and that the county court shall employ a competent engineer who shall prepare specifications and estimates for all work to be done, and shall then advertise for bids for the same, letting all of said work by contract, and the work to be done to the satisfaction of the engineer and county court.

TO KEEP THE SOIL FERTILE.

Experiments Show That Farmers Must Learn to Apply Phosphorus.

The keynote of the soil fertility problem lies in phosphorus, according to Cyril G. Hopkins, professor of agronomy at the University of Illinois. Farmers of the middle west must get the habit of making frequent and sensible applications of this element of plant food if they would retain their lands for permanent agriculture.

The draft upon phosphorus when a system of live stock farming is followed is very great, but with a reasonable expenditure to the acre the amount of this plant food may be doubled. Such an application is best made with the use of finely ground natural rock phosphate. In several other ways phosphorus may be supplied, but Professor Hopkins' experiments show that for a given amount of money the rock phosphate yields the greatest profits.

An application of one thousand pounds of rock phosphate to the acre every four years should be made to offset the loss to the soil through cultivation. In this form, phosphorus may be purchased for three cents a pound.

Dissolved Partnership.

The partnership heretofore existing between Nash & Glass has been discontinued. The business will be conducted by me at the same office as before, where I will conduct a general real estate and insurance business. Will also rent and look after non-resident and other property for those desiring my services, my charges always being reasonable. I have a list of good farms and city property for sale which I will be glad to show to those desiring to purchase.

Thanking my friends for their patronage in the past and desiring a share of it in the future, I am,

Yours for business,

A. L. NASH.

Office phone, Hanamo 3-6.

Box Car as Depot.

A box car is being used at Conception Junction as the depot for the Wabash and also the Great Western, since their station was destroyed by fire on Monday. The Wabash bridge over the Great Western track, which was destroyed by the fire, has been built up again and all Wabash trains are now running over it.

Mr. and Mrs. Eugene Holmes of Kansas City are visiting in the city with Mr. and Mrs. O. L. Holmes and Mr. and Mrs. G. B. Holmes.

News of Society and Womens' Clubs

Pickering Mothers' Club.

The Pickering Mothers' club will meet on Friday afternoon from 2 to 4 o'clock with Mrs. Joseph Everhart. A full attendance is desired as election of officers will take place.

Mothers' Circle Will Assist.

The president of the Mothers' Circle and the committee in charge desire that all the members take part in assisting the Commercial club in caring for the children at their big picnic Wednesday afternoon. Transportation to picnic grounds will be provided by the Commercial club. Be on library lawn at 1 o'clock with lunch basket and a determination to help make the kiddies glad they are living.

A Birthday Surprise.

A very pleasant surprise was had and successfully carried out at the home of Mr. and Mrs. C. C. Carr in honor of the birthday anniversary of their son, Ersel, on Saturday. Forty-seven of his young friends were present. The evening was spent in music and games, and watermelon, ice cream and cake were served. Those present were Misses Florence and May Shipps, Helen and Mildred Wamsley, Mollie and Jessie Lyon, One and Pauline Woodward, Nettie Campbell, Edith Wyatt, Mary and Silvia Colter, Jennie Dobbins, Ruby Clements, Lizzie Farner, Maggie Rose, Florence McKilip, Gladys Haynes, Corda and Neva Smith, Lida Ambrose, Orpha and Neulah McFarland, Golda Wolford, Lucy Carr, Messrs. Frank Gray, George Wamsley, Russell Woodward, Earl and Cordon Vickery, Warner Wyatt, Ollie Farner, Paul Barmann, John, Floyd and Delbert Ambrose, Joe and Raymond Dobbins, John Wolford, Ret and Fay Corrough, Squire Lencott, Dale and Harry Whitehurst, Fred Davison, Scott and Virgil Campbell.

O'Riley-Donahue.

A very pretty wedding occurred Tuesday morning at St. Patrick's church in this city, when the Rev. Fr. Neiman pronounced the words which joined the lives of Miss Elizabeth O'Riley and Mr. William Donahue, two well known young people of this county. Miss O'Riley is the daughter of Mrs. Margaret O'Riley, living west of town, and is a very highly accomplished and popular young lady. She is also one of our most successful school teachers, and will be greatly missed in the Nodaway county schools, where she has taught for the past eight years. Mr. Donahue is the son of William Donahue, living near Clyde. He is now employed by the hardware firm of Manchester & Dadds at Skidmore, which position he has held for the past five years. Mr. Donahue is an industrious and enterprising young man, who has tried to make the best of life's opportunities. The bride wore a beautiful wedding gown of white satin overlaid with white silk embroidered net with trimmings of pearl, with a white tulle veil, which was held in place by a wreath of white violets. She carried a large bouquet of bride's roses, also tied with white tulle. The bridesmaid wore a pretty gown of white crepe, daintily trimmed with yellow, with a large white face hat with trimmings of the same, and carried a large bouquet of yellow roses tied with yellow ribbon.

The bridal couple was attended by Miss Anna Dougan of this city and Mr. Edgar O'Riley, brother of the bride. They left on the 8 o'clock train for Kansas City, where they expect to visit a few days. From there they will go to visit various places before they return to their home in Skidmore.

A Small Fire Monday.

Fire was discovered in the chicken house of Jasper Seals, on South Depot street, in East Maryville, on Monday afternoon about 3:30 o'clock. The fire was put out by a number of men, and it was not necessary to call the fire department.

Maryville's Only One Priced Clothier.

FRANCIS IS THE MAN.

Mike Moran of St. Joseph Says Francis Can Capture Stone's Toga.

Former State Senator Mike Moran of St. Joseph, in Jefferson City Saturday on legal business, declared that former Governor David R. Francis of St. Louis is the only man in sight who could beat Senator William J. Stone for a renomination at the state primary next August.

"Governor Francis," said Moran, would carry every county in the Fourth congressional district over Stone except possibly Platte. He is the only man mentioned for senator who could do that as against Stone.

"Many of the circumstances that proved disadvantageous to Governor Francis in his race for the senate against Reed in 1910 are eliminated now and some of the factors that contribute to his defeat at that time are negligible qualities.

"In my judgment Francis would carry that portion of the state lying between the Kansas line on the west and the Chariton river on the east and north of the Missouri river, with the exception of Platte and one or two other counties.

"If Francis does not run there is no other man in sight or who has been mentioned in connection with the senatorship who could wrest that section of the state from Senator Stone.

"I hear that everywhere I go in travelling over the northwestern part of Missouri. The opinion there is widespread and growing that Francis is the one man who can defeat Stone. Our people are not talking much politics now except the senatorial succession. That they are interested even a year in advance of the primary is shown by the fact that it is being discussed everywhere up there."

Maurice Costello tonight at Fern.

RAIN THIS MONTH—PERHAPS.

Dry Weather Septembers Famous For Furnishing Large Amounts of Moisture.

A comparison of the rainfall of September of other dry years is at least hopeful, if it may be taken as a guide for this year. If the records can be taken that way, Maryville will have plenty of rain and cooler weather this month.

In the dry year of 1901 the rainfall for September amounted to 3.76 inches, being 2 of an inch more than normal. In the dry year of 1911, September rainfall was 3.93 inches, being 37 of an inch above normal. These two years are known as the driest years since the weather records have been

kept in the last twenty years.

And during the past twenty years there have been only four Septembers when the rainfall was less than two inches, and only two Septembers when it was less than an inch.

"Oh, You Flirt," "Head Hunters," at the Star theater tonight.

Children's Picnic Tomorrow.

The picnic for the children of school age of Maryville will be held tomorrow at the E. P. Powell grove. The Maryville band will furnish music during the afternoon. There will be twenty-five cars to take the children out and bring them back. All of the children are to meet at the library at 1 o'clock and will be taken from there.

MARYVILLE, MISSOURI, TUESDAY, SEPT. 2, 1913.

NO. 78.

FALL TERM TO OPEN

SEPTEMBER 15 SEES BIG STATE SCHOOL AT WORK.

SEES NEED OF HOUSES

President Richardson Says Maryville Is Losing Desirable Citizens From Lack of Residences.

The fall term of the Normal will open on Monday, September 15, and the prospects are fine for a big enrollment. Next week many of the teachers of the Normal will visit several of the counties in the Normal district to do field work.

The school has had a good growth during the past year, and 782 young men and women have been enrolled in the institution and 151 children have participated in the opportunities of its training school.

President Ira Richardson of the school says that Maryville must do something to relieve the rented house situation. In talking of the matter, he says:

"It is to be regretted that there are no more comfortable and convenient homes to be found for rent in our city at reasonable rates, because a number of families have been desirous of moving to Maryville to educate their children, but could find no comfortable quarters in which to live. We must solve some of these problems if we do our part in the growth and development of the school. Parents will not send their sons and daughters to places where adequate and comfortable means of living cannot be secured."

President Richardson, in talking of the Normal, says:

"The normal school is a state school, whose function is expressed in the statutes of the state of Missouri, viz: 'To prepare young men and women to become competent teachers of the schools of the state.' The normal school is therefore justified in its existence as a distinct type of education insofar as it gives individuals a more largely increased ability to direct the education of the children. To do this it must concern itself with questions of academic and professional scholarship and training. It is a state school and therefore is concerned with the problems which enable it to render service to the state, and while it is allotted a certain district and located in a certain place, yet its field for service cannot be thought of as being limited by these boundaries. As an institution it must render efficient service to the teacher and to the school, and likewise the home, with its occupants, and the communities in which they live must be kept constantly in mind. The normal school must be a leader in public education and forecast its future. It must give qualities of culture as well as efficiency in technical training. In the immediate field of education its problems have to do with rural, elementary and secondary instruction and organization. It must train individuals to solve problems in these various fields. It now has too few individuals prepared to meet these problems whom it can recommend for positions in various places. It is a school of college grade and the central part of its work is that part of its work which is college grade. It maintains secondary school courses of instruction to meet the demands placed upon it by individuals from communities having the limited high school opportunities. The normal school also maintains an elementary school designated as its training school. This division is a typical elementary school consisting of kindergarten and the usual eight grades found in our public schools. This school serves as a basis for the study of the problems of child development and also as a laboratory in which our seniors are given their training in the details of handling school activities. The training school will open for its regular session on Tuesday, September 16. Children and parents who wish to confer about enrollment of their children may do so on Monday, the 15th. Applications for places in the several grades of the training school are now being received. Places will be allotted in the order of their reception until the quota for each grade is full. There is no tuition in the training school, and we offer exceptional advantages for the instruction and development of children. The welfare of the child is our constant point of view, and their work is carefully supervised in every particular."

"A number of requests have been received from young men and women who wish opportunities for work during their attendance at school in order

to defray a part or all of their expenses of living while here. If there are citizens of our town who have work or who can supply work to individuals of this type they will confer a favor upon these young men and women by letting me know about it at once.

"The teaching profession is offering greater opportunities today than ever before to young men and women who are prepared to render efficient service in the school room.

"It is the desire of the management of the school to co-operate in every way possible with the different institutions and organizations of the city of Maryville in order to render the most efficient service possible in any commendable line of advancement or civic development. We invite the acquaintance of every resident of Maryville. Your presence will be welcome in our class rooms from time to time, and we shall be glad to have visitors inspect the various phases of our work."

CONFERENCE MEETS WEDNESDAY.

County Pastors of M. E. Church, South, to Journey to St. Charles, Mo., For Occasion.

The annual Missouri conference of the Southern Methodist church, which embraces the St. Joseph district and comprises 212 members, will convene at St. Charles, Mo., on Wednesday.

Rev. J. D. Randolph, pastor of the Buchanan Street Methodist church, will leave Wednesday morning for the conference, and the other ministers of that church in this county will also probably leave at the same time. There are only four other ministers in the county, and they are Rev. S. E. Hoover of Ravenwood and Guilford churches; Rev. J. F. Patton of the Skidmore church; Rev. M. Dewitt of Barnard and Wilcox, and Rev. Holliday of Elmo.

It is not likely that there will be any change in the pulpits in this city or in the county, as the pastors have not served the maximum of four years here.

Rev. Randolph has been pastor of the Maryville church one year, and during that time the church has made progress. There has been an addition of twenty members during that time, and the church has raised \$2,400 to pay the current expenses. During Rev. Randolph's absence next Sunday the pulpits of the church, both morning and evening, will be occupied by Dr. R. E. Hamilton of this city.

TO BUILD A ROUND BARN.

Fred Curfman, Living East of Maryville, Began Work on New Barn For His Farm.

A round barn which is to be a complete circle and fifty-four feet in diameter, is to be built on Fred Curfman's farm, east of Maryville. The foundation is already in and the work of constructing the barn will be under the direction of Contractor Benton Steele of Halstead, Kan. The round barn is said to be more practical than the square or rectangle barns. This new barn will be the first one of its kind in this section of the country.

ALFRED E. BROWN.

Swam From the Battery to Sandy Hook, Establishing Right to Championship.

© 1913, by American Press Association.

By swimming from the Battery, in New York, to Sandy Hook, a distance of twenty-two miles, in thirteen hours and thirty-eight minutes Commodore Alfred E. Brown of the American Life Saving society has established his right as the champion swimmer of America. Scores of attempts have been made by the best swimmers in the east to perform this feat, and Commodore Brown has made previous efforts, but this is the first time that it has been done. On his arrival at Sandy Hook the swimmer, who was numb with cold, said that he felt no ill effects. He is shown in the picture with his little daughter.

MULES THE BEST

CARRIERS SAY THEY ARE MORE SATISFACTORY THAN AUTOS.

FAVOR GOVERNMENT AID

Carriers Adopt Resolutions and Elect Officers—St. Joseph Next Place of Meeting.

At the rural carriers' meeting of the Fourth congressional district, held in Maryville on Monday, it was generally agreed by those who have tried them that a span of Missouri mules will give better satisfaction than an automobile or motorcycle as a means of transportation. Other carriers' problems were discussed, such as the government should equip the carriers better, and that the postmaster and carriers work together and more efficient service can be secured.

It was also agreed by the association that the rural carriers should be on the same basis as city carrier or railway clerk. As it is now the rural carriers have no chance of promotion. The officers elected for the coming year were:

President—S. S. Browne, Hopkins. Vice Presidents—Andrew, M. C. Wachtel, Savannah; Atchison, O. H. Anderman, Rock Port; Buchanan, G. S. Daughters, St. Joseph; DeKalb, Oliver Wright, Union Star; Holt, Fred Landers, Forest City; Nodaway, Sheridan Graves, Burlington Junction. Secretary-treasurer—O. G. Null of Pickering.

The next meeting of the association will be held at St. Joseph on February 22, 1914.

The association has now forty-eight members, twenty-four of them being from Nodaway county. There were eight new members that joined the association at this meeting.

The Resolutions.

We, your committee on resolutions, beg leave to submit the following report: Be it resolved by the rural carriers of the Fourth congressional district of Missouri, that owing to the increase of work occasioned by the parcel post, we ask an allowance for maintenance of equipment.

That we ask congress to give the postmaster general authority to abate the so-called "penalty" nuisance.

That the association adopt the slogan "Every carrier in the district" and all carriers work to obtain that result.

That we favor government aid in improving and maintaining roads used for rural routes.

That the association express our thanks to the rural carriers of Maryville for their excellent arrangements for the meeting of the association.

That our thanks are due the county court for the use of the court house.

That we express our thanks to the Commercial club of Maryville for the welcome given by their secretary, John I. Hoffman.

That we express our appreciation of the efficient manner in which the officers of this association have fulfilled their duties.

Respectfully,
G. S. DAUGHTERS.
O. G. SPARKS.
B. A. BONEWITZ.

CRIMINAL CARELESSNESS.

Lighted Cigar Stub Causes Flame That Might Have Made Disastrous Blaze.

A thoughtless man threw away his cigar stub about 8 o'clock last night without taking any precautions to extinguish it or throw it into the street. It fell into the yard of Mrs. Winfield Scott on West Seventh street. A moment later the grass was in a blaze and the fire was spreading rapidly. A man passing in an automobile saw the fire, got out of his car and stamped out the flames.

With everything as dry as tinder the flames from such a fire might easily spread to a building, and what might have been a serious fire was put out because a thoughtful man followed not far behind the thoughtless man.

This little incident should serve as a warning to the people of Maryville, for although Creston's big fire was started by a spark from a passing train, the depots at Conception and a house near Guilford burned from the same cause, and a barn near Hopkins set fire by a careless smoker, people seemingly pay no heed until a similar example is brought home to them.

Mr. and Mrs. Orloff Clark are at home at the Linville hotel after a week's honeymoon trip to St. Joseph, Kansas City, Excelsior Springs and Chillicothe.

LIST OF TEACHERS

COUNTY PEDAGOGUES—WHERE THEY GET MAIL.

THEY OUTNUMBER MEN

A Large Proportion of the Rural Teachers Are of the Female Persuasion—181 Districts.

The rural schools over the county opened Monday, but owing to the heat and dry weather, only a small number started in on that day. The following are the teachers of the rural schools of the county, with the district numbers where they are teaching and the nearest postoffice address of the school:

1. Austie Cowen, Sheridan.
2. Hazel Hook, Hopkins.
3. Bessie Dinsmore, Hopkins.
4. Bessie DeVore, Hopkins.
5. May Summers, Hopkins.
6. Effie Henderson, Hopkins.
7. Bertha Cross, Hopkins.
8. Nona Carothers, Braddyville, Ia.
9. Lila Lee Beaver, Braddyville, Ia.
10. Margaret Hopper, Elmo.
11. Blanche Williams, Elmo.
12. Frances Holliday, Clearmont.
13. Cora Carver, Elmo.
14. Lillian St. Clair, Clearmont.
15. Ruth Hobbs, Clearmont.
16. Bertha Knobel, Clearmont.
17. Bess Burch, Hopkins.
18. Lou Snodgrass, Hopkins.
19. Beulah Russell, Hopkins.
20. Hazel Olmsted, Hopkins.
21. Bessie Lawler, Sheridan.
22. Mrs. Myrtle Pierce, Sheridan.
23. Edna Stoner, Sheridan.
24. Dora Smith, Sheridan.
25. Ada Walter, Parnell.
26. Bessie Nicholson, Hopkins.
27. Grace M. Lewis, Hopkins.
28. Chloe Busby, Hopkins.
29. Grace Robbins, Hopkins.
30. Jennie Ringgold, Hopkins.
31. Veronica O'Grady, Maryville.
32. Nettie Jensen, Clearmont.
33. Mayme E. Burks, Elmo.
34. Ethel Tibbets, Burlington Junction.
35. Otto Riley, Elmo.
36. Fay Bailey, Elmo.
37. Noemi Horn, Burlington Junction.
38. Edith Davenport, Burlington Junction.
39. Stella Hurst, Burlington Junction.
40. Bessie Brown, Burlington Junction.
41. Mary B. Carter, Clearmont.
42. Jennie Pugh, Burlington Junction.
43. Maude Whitehead, Maryville.
44. W. H. Burr, Maryville.
45. Agnes Handley, Pickering.
46. Jas. L. Clayton, Pickering.
47. Harry Clayton, Pickering.
48. Elva Hefflin, Parnell.
49. Dollie Dinsmore, Parnell.
50. Jas. M. Hook, Sheridan.
51. Helen Matteson, Parnell.

Is Seriously Sick.

Mrs. J. L. Alexander of near Pickering is seriously sick. Her daughter, Mrs. A. Adcock, and daughter of Denver, Col., arrived Tuesday, called by her mother's sickness.

THAW'S JAILER.

Boisver Is Always Ready To Foil Any Attempt That May Be Made For Freedom.

© 1913, by American Press Association.

Canadian authorities have taken every precaution to guard Harry Thaw while he is in jail at Sherbrooke. It was rumored that force would be used to free him. Thaw's lawyers are very hopeful now, however. Ex-Governor William A. Stone of Pennsylvania is quoted as saying, "Snow will be deep before Thaw says farewell to the city."

MAY BE SHUT OFF

FIRE PROTECTION WILL BE FIRST EFFORT OF BOARD.

DITCHING THE RIVER

Ice Famine Also Imminent—Until Further Supplies Are Received Resolved For Sickness.

It may be necessary to discontinue the water service entirely. Up to this afternoon, the water service has been off all day but it is expected that it will be turned on for a time this evening. But unless conditions are better soon, the service will be cut off for the entire day and enough saved for fire protection.

The board of public works is doing everything in its power to prevent such a situation, but it is working against long odds. In a meeting Monday night the board discussed the entire situation and decided that the only thing that could be done now was to make an effort to get the water from the pools up the river.

An extra force of men was put to work this morning ditching the river so that the water in these pools can be drained to the pumping station. As long as this method brings results there is some hope, but when the pools give out Maryville will be without water. A big rain is the only thing that will relieve the situation then.

The reservoir is being filled as rapidly as possible for fire protection, and it may become necessary to discontinue the water service for all other purposes; for if a fire once gained a headway here it would take all the water the reservoir could furnish to fight it with.

An ice famine is imminent too. Both ice companies quit delivering ice to the residences today. Only in cases of sickness will ice be delivered to the homes. Unless plenty of it can be shipped in soon, or enough water had with which to manufacture it the supply of ice here will scarcely furnish the needs of the meat shops, groceries and fountains down town.

William Everhart said this morning that he had just enough water in the reservoir of his ice plant to water his horses. If he could get water one hour in every six he could manufacture four or five tons of ice a day. He has 100 pounds of steam in his boilers ready to start the plant at any moment should he be able to get water. As it is he has had to send to St. Joseph for ice. He was able to get only one carload, which will not be here until Thursday night. This morning he had work started on deepening the well at his plant in an effort to get water. The well is 250 feet deep, but it did not supply water.

Harrison Brothers are equally as short on their supply of ice.

Other towns in this section of the country and in Kansas are as bad off as Maryville in regard to water supply. Some of these places have not enough for fire protection. Bedford, Ia., supply of well water is exhausted. Here's what Springfield, Mo., is doing:

Ward fire patrols are being organized by citizens, owing to the seriousness of the water shortage. In each ward a reserve water supply will be distributed at all residences, to be kept for fire protection only.

LIGHT PLANT TO OPERATE.

Manager of Plant Thinks He Can Keep Plant Going Even If Necessary to Haul Water.

C. C. Hellmers, manager of the light company, said this afternoon that he was almost certain the plant would not have to shut down. Their own wells have not yet given out, although Mr. Hellmers does not know how soon they will. Even then he thinks enough water can be hauled to run the plant at the very least from 5 p. m. until midnight. The street lighting service will first be discontinued if it is necessary to cut down the service at all. Something may come up suddenly that would stop the plant for a few hours, but the probability is that light and power service will be given every day and until midnight.

162 This Afternoon.

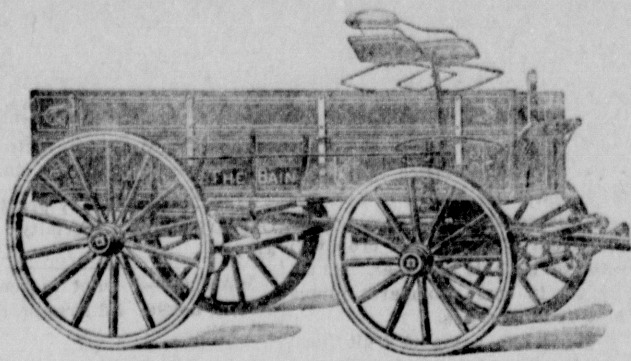

The government thermometer registered 162 at 2 o'clock this afternoon.

A marriage license was issued Tuesday to Frank W. Harvey and Gaye L. Lucas of Parnell.

THE WEATHER

Generally fair tonight and Wednesday; continued warm.

A CARLOAD OF

Bain Wagons

Just Arrived

The Bain Wagon is not the lowest priced wagon but it is an acknowledged fact that it is the best and is the standard by which all other wagons are compared and for service and utility will, in the end, prove your best wagon buy.

Farm Wagon Insurance
Not Fire—Service

The manufacturers of THE BAIN Wagon have built up a form of insurance which, in effect, is better than fire insurance. It insures the lasting quality of material and workmanship that goes into every Bain Wagon—it gives you the guarantee that protects your investment—they have to—because theirs is not a cheap wagon, it is a wagon built upon the honor of the name—THE BAIN, behind which is one of the largest wagon plants in America. This is one of the things that makes THE BAIN make good.

The Reason

If you could walk around the acres of lumber piles which form a large part of the raw material that has been air-drying for years—then go through the process of manufacture, you would understand why THE BAIN has earned the name of "The Best Wagon on Earth." You would know why theirs is the one wagon to stand up in all climates, no matter how arid. THE BAIN wagon is made from the highest grade of materials, by the best skilled mechanics. This has been the policy of THE BAIN Wagon Company for over sixty years.

Bain Wheels

The wheel is the most vital part of your wagon. The dodge method of construction has been adopted in the setting of the spokes into the hubs, giving a wider base of resistance and enabling the wagon to carry a heavier load than is possible under the old and prevailing style. Bain wheels are immersed in boiling linseed oil. The oil works its way into every pore and grain of the wood and forms a preservative against all future changes in climatic conditions.

Bain Axles

Bain axles are made of the best selected air-dried hickory constructed and braced so the fulcrum is transferred in all cases to the point of the greatest strain.

Bain Skeins

Bain skeins are made from special patterns, designed to admit as large an amount of the axle as possible into them. The steel skein is provided with a long sleeve that reaches under and fits closely to the axle, while the cast skein is reinforced by a truss rod.

Bain Box

The manufacturing of the Bain box is given as much care as the wheels and gear. The sides are made of yellow cottonwood, the bottoms of long-leaf yellow pine, the cleats being of oak and elm and attached with rivets. All the different models of wagons are equipped with all the latest features.

Come in and we will show you the merits of this wagon.

COMPROMISE ON
INCOME TAX RATENo Change on Incomes Below
Quarter Million.

HIGHER RATES TO BEGIN THERE

Incomes of Million Yearly and Above to Pay Six Per Cent—Proposed Compromise Not Satisfactory to Several Insurgent Senators.

Washington, Sept. 2.—An increase of the income tax on large fortunes only when the incomes run above \$250,000 annually is the basis of a compromise Democratic members of the senate finance committee will recommend to the caucus tonight.

The attitude of the insurgent Democrats was such as to indicate that they would not accept the arrangement without a fight and the caucus may run two or three days.

The finance committee has decided to leave the rates of the income tax as at present, up to the \$250,000 mark. The new taxes now proposed, in addition to the normal tax above the \$3,000 minimum, are:

Four per cent additional from \$250,000 to \$500,000; 5 per cent additional from \$500,000 to \$1,000,000, and 6 per cent above \$1,000,000. It is estimated there are 550 persons in this country with incomes between \$250,000 and \$500,000; 350 with incomes between \$500,000 and \$1,000,000, and more than 100 with incomes above \$1,000,000.

Cummins Has Amendment.

Senator Cummins introduced an amendment proposing a 10 per cent tax on all sales of stocks, bonds, cotton or agricultural products through organized stock or produce exchanges, "where the seller is not the actual owner, of the thing sold." His amendment was offered as a substitute for the Clark amendment.

Senator Cummins declared stock exchanges "sales" in New York last year were fully 95 per cent "fictitious."

"Not 10 per cent of the railroad stocks of the United States change hands each year," he said, "yet the so called sales on the New York Stock exchange last year amounted to four-fifths of the entire stock issues of all the railroads of the United States. This does not include the sales at Philadelphia, Boston, Chicago and other cities."

"This short sale evil is the greatest menace now threatening the financial and industrial strength of this country," said Senator Cummins. "Some day we must undertake the task of suppressing these gigantic gambling transactions, and I believe this is the time to begin."

Senator Cummins said he did not seek to abolish stock exchanges, but wanted to make them "useful" to the country in the scores of actual trades.

BRADEN DIRECT SETS RECORD

Paces Mile in 2:02.14 in Free-for-All at Grand Circuit Meet.

Hartford, Conn., Sept. 2.—The Grand Circuit races at Charter Oak park were ushered in with some fast racing and exciting finishes and featured by the fastest heat of the season. Braden Direct set the new season's record of the first heat of the free-for-all race when he stepped the mile in 2:02.14, and in the third heat his time was equalled when Earl, Jr., came through a winner and took first money. Tenara, the mare that has been the sensation of the season, won her fourth big race when she led the field in the historic Charter Oak stake, purse \$10,000, in straight heats.

Sleuth Goes Insane, Holds Up 5 Men.

Hartford, Conn., Sept. 2.—A bit of wild west tragedy was enacted in the railroad yards here when Isidor Proder, a railroad detective, suddenly insane, held up five railroad men in a switchman's shanty. When all had their hands uplifted, palms outward, he began firing. Of five bullets, only two found their marks, wounding J. J. Doulon and F. B. West. Proder backed out and officers later arrested him.

Motorcycle Racer Dies From Injuries.

Montgomery, Ala., Sept. 2.—Just after he had finished second in a motorcycle race at Vandiver park, Dan Morrison, an electrician, was catapulted over the outside enclosure of the park when his engine became clogged, and received injuries from which he died while being rushed to a hospital.

Kansas Convicts Baptized.

Leavenworth, Kan., Sept. 2.—Twenty-one Kansas convicts were baptized at the state prison, eleven by sprinkling and ten were immersed in the big tank in the prison laundry. This makes an even 100 souls saved in the prison, according to Warden Botkin.

Girl Killed in Auto Overturn.

Aurora, Ill., Sept. 2.—Miss Helen Gardner was killed and David L. Gardner, her father, a wealthy real estate dealer here, was badly injured when the automobile in which they were riding overturned on a fifteen foot embankment near Elgin.

Fire in Garment Factory Incendiary.

St. Louis, Sept. 2.—Police investigation of the fire in a downtown building occupied by garment making firms, against which a strike has been declared, disclosed that the building was fired from the outside.

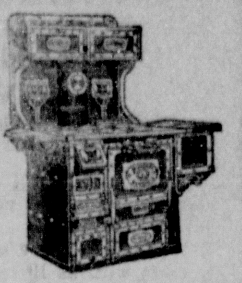

Monarch Malleable Ranges

Are built for durability, efficient, service and economy in consumption of fuel. All of which is of vital importance to the housewife.

Top is riveted to the body. The oven is riveted to malleable angle and the angle in turn riveted to body of range, making an absolute air tight joint. The top is ground perfectly smooth never needs polishing.

There are no bolts to become loosened by contraction or expansion in the Monarch Range. This is only possible in Malleable construction. We have a full line of these ranges on our floor and would be glad to show you their many points of merit.

G. W. HAGENBUCH,
General Agent,
905 Main St., Kansas City, Mo.THAW'S HEARING
TO BE PRIVATE
Spectators and Even Reporters
to Be Barred from Chambers.

Sherbrooke, Que., Sept. 2.—Judge Hutchinson announced that the habeas corpus proceedings today in the case of Harry K. Thaw will be held in private. Not even William Travers Jerome, chief of the New York state interests, seeking Thaw's return to Matteawan, will be allowed in chambers.

He had weighed the matter carefully all day, noting meantime the ever-swelling crowd pouring into Sherbrooke for the fair. On the lips of nearly everyone was a sympathetic word for Thaw. Taking cognizance of this and of the outbreak of last Wednesday, when Thaw was cheered in court as a hero, the judge decided that the wisest course would be to exclude spectators.

Reporters are also to be barred, and while the lawyers may be present in a body, if they so desire, only two or so representing New York are to take part in the proceedings. They are Samuel Jacobs of Montreal, chief Canadian counsel for the state, and Hector Verret, appearing for the Matteawan asylum, from which Thaw escaped.

Thaw is to be driven from the jail to the court house in a closed carriage in charge of Governor La Force. Hundreds, who doubtless will line the streets along which he passes, will be denied a glimpse of Thaw unless he leans out of the cab window. In chambers it is expected the proceedings will be brief. There are three courses open to the judge. He can adjourn the hearing and ask both sides to submit briefs; he can sustain the writ, which will instantly make Thaw a free man and place him within the grasp of the immigration officers; or he can deny the writ and remand the prisoner back to jail to await disposition of his case by the king's bench in October.

Thaw's lawyers went forward with their plans for preventing his release on the writ of habeas corpus. If the writ is sustained there will be a dramatic scene in court, for the instant Thaw is a free man, E. Blake Robertson, acting for the immigration department, will step forward, tap him on the shoulder and announce: "I arrest you in the name of the king."

OMAHA LIVE STOCK MARKET

Cattle Trade Active, With Prices Steady to Ten Cents Higher.

South Omaha, Sept. 2.—Cattle—Receipts, 8,000; steady to 10c higher; beef steers, \$7.25@8.95; cows and heifers, \$3.50@7.50; stockers and feeders, \$5.75@7.80; bulls, \$5.00@6.75; calves, \$3.00@5.50. JEFFERSON CITY LETTER.

(From Democratic Press Bureau.)

The August statement shows cash to the amount of \$6,500,000 in Missouri's treasury. This, too, after most all the appropriations, except those for the public schools, made by the last legislature have been paid. This statement will be very gratifying to the average taxpayer, but rather painful to those Republican newspapers which have been talking about how a Democratic legislature bankrupted the treasury.

Missouri's treasury is enriched to the amount of about \$18,000 per month these days, thanks to a Democratic legislature, which broke up a bankers' trust by a law which permitted country banks to bid for state deposits. A much higher rate was secured as a result of this law.

Work on the new state capitol at Jefferson City is progressing nicely. The foundation will be finished within a month and bids for the superstructure will be let at once. It will be the most complete capitol building in the world and when it is finished the taxpayers will have forgotten full value for every dollar expended. Men of character, experience and integrity are on the job and there will not be graft to the extent of one penny when it is finished.

The success of his good roads days has inspired Governor Major to call a national meeting at St. Louis next November. Governors, congressmen and boosters from all sections will be invited. The governor hopes to secure practical support for a scheme for government aid on which he has been working for some time. He can see no reason why the government should spend hundreds of millions of dollars every year for battleships, coast defenses, colonies and other things in which the farmer has only a direct interest, and do nothing at all for the highways in which every citizen has a direct interest. He believes the way to remedy such a condition is to devise the right sort of plan, then bring such pressure to bear that congress will do for the home folks what it has been doing for outside interests all these years. The governor is a son of a farmer and earned his first money as a farm hand, hence his interest in better roads and other things of benefit to the farming class.

Let's see—wasn't there once a man named Hadley and a party called Republican in Missouri? Or have you been too busy boosting for the progressive policies of the present Democratic administration to waste thought on dead horses?

Sixty-two thousand dollars has been added to Missouri's revenues already by the corporation tax law passed by the last legislature. The amount will continue to grow. The automobile license law has brought in more than \$15,000 for the good roads fund thus far this year. The new law relating to bids for state deposits gives the people \$18,000 a month more than they received under the old law, while the utilities board has already earned \$26,000 above all its salaries and expenses. Facts like these are very disconcerting to those Republican editors who try to create the impression that everything is going out and nothing coming in as a result of the last legislature's work. The fact is, more money will be paid out for roads and schools under the present Democratic than under any other administration in all the history of the state. Better still, the tax rate will not be increased to the extent of one penny. It is a Democratic way in old Missouri.

BRIDGES ARE NEEDED.

Bond Issue, If Submitted, Should Be Adopted—The Money is Properly Safeguarded.

The proposition of a \$200,000 bond issue as a means of relieving our lamentable road and bridge conditions, and more particularly the bridges in the county, should meet with the approval of the voters of the county. As the bridge fund is now \$20,000 in the red there is no hope for many bridges to be built the coming year, or even after that, as the fund is not sufficient.

A bond issue is the only way to construct the many needed bridges.

Petitions are being circulated now over the county for signers, calling on the county court to set an election when the matter will be voted on. It only takes 100 signers, and it is said that that many signers have already been secured. The petitions will be presented to the court on next Wednesday, and the election day will then be selected.

Nodaway county voted on a bond issue of \$75,000 for roads and bridges on August 18, 1908. The proposition was badly defeated, the vote being \$19 for the issue and 2,242 against. It takes a two-thirds majority for the proposition to carry.

The provisions of the law, in brief, are as follows: If the county court finds that the petitions as a whole contain the names of one hundred or more taxpaying citizens of the county, the court must order an election to be held in the county within forty-five days thereafter, for the purpose of submitting the proposition to the voters, and if two-thirds of all those voting at said election vote in favor of said proposition, it then becomes the duty of the court to issue the bonds and sell them from time to time as the money is needed. The bonds bear interest only after they are sold, and under the law cannot bear a greater rate of interest than 5 per cent, and one-twentieth of the total issue must be paid off each year. None can run longer than twenty years, and the county has the option to pay them all off or any part of them at any time they may desire.

The law further provides that the money derived from the sale of these bonds shall be placed in the county treasury in a special fund, to be used for permanent road improvement only, and that the county court shall employ a competent engineer who shall prepare specifications and estimates for all work to be done, and shall then advertise for bids for the same, letting all of said work by contract, and the work to be done to the satisfaction of the engineer and county court.

TO KEEP THE SOIL FERTILE.

Experiments Show That Farmers Must Learn to Apply Phosphorus.

The keynote of the soil fertility problem lies in phosphorus, according to Cyril G. Hopkins, professor of agronomy at the University of Illinois. Farmers of the middle west must get the habit of making frequent and sensible applications of this element of plant food if they would retain their lands for permanent agriculture.

The draft upon phosphorus when a system of live stock farming is followed is very great, but with a reasonable expenditure to the acre the amount of this plant food may be doubled. Such an application is best made with the use of finely ground natural rock phosphate. In several other ways phosphorus may be supplied, but Professor Hopkins' experiments show that for a given amount of money the rock phosphate yields the greatest profits.

An application of one thousand pounds of rock phosphate to the acre every four years should be made to offset the loss to the soil through cultivation. In this form, phosphorus may be purchased for three cents a pound.

Dissolved Partnership.

The partnership heretofore existing between Nash & Glass has been discontinued. The business will be conducted by me at the same office as before, where I will conduct a general real estate and insurance business. Will also rent and look after non-resident and other property for those desiring my services, my charges always being reasonable. I have a list of good farms and city property for sale which I will be glad to show to those desiring to purchase.

Thanking my friends for their patronage in the past and desiring a share of it in the future, I am,

Yours for business,

A. L. NASH.

Office phone, Hauano 3-6.

Box Car as Depot.

A box car is being used at Conception Junction as the depot for the Wabash and also the Great Western, since their station was destroyed by fire on Monday. The Wabash bridge over the Great Western track, which was destroyed by the fire, has been built up again and all Wabash trains are now running over it.

Mr. and Mrs. Eugene Holmes of Kansas City are visiting in the city with Mr. and Mrs. O. L. Holmes and Mr. and Mrs. G. B. Holmes.

News of Society and Womens' Clubs

Pickering Mothers' Club.

The Pickering Mothers' club will meet on Friday afternoon from 2 to 4 o'clock with Mrs. Joseph Everhart. A full attendance is desired as election of officers will take place.

Mothers' Circle Will Assist.

The president of the Mothers' Circle and the committee in charge desire that all the members take part in assisting the Commercial club in caring for the children at their big picnic Wednesday afternoon. Transportation to picnic grounds will be provided by the Commercial club. Be on library lawn at 1 o'clock with lunch basket and a determination to help make the kiddies glad they are living.

A Birthday Surprise.

A very pleasant surprise was had and successfully carried out at the home of Mr. and Mrs. C. C. Carr in honor of the birthday anniversary of their son, Ersel, on Saturday. Forty-seven of his young friends were present. The evening was spent in music and games, and watermelon, ice cream and cake were served. Those present were Misses Florence and May Shilps, Helen and Mildred Wamsley, Mollie and Jessie Lyon, One and Pauline Woodward, Nettie Campbell, Edith Wyatt, Mary and Silvia Colter, Jennie Dobbins, Ruby Clements, Lizzie Farner, Maggie Rose, Florence McKillop, Gladys Haynes, Corda and Neva Smith, Lida Ambrose, Orpha and Beulah McFarland, Golda Wolford, Lucy Carr, Messrs. Frank Gray, George Wamsley, Russell Woodward, Earl and Cordon Vickery, Warner Wyatt, Ollie Farner, Paul Barnmann, John, Floyd and Delbert Ambrose, Joe and Raymond Dobbins, John Wolford, Ret and Fay Corrough, Squire Lencott, Dale and Harry Whitehurst, Fred Davison, Scott and Virgil Campbell.

O'Riley-Donahue.

A very pretty wedding occurred Tuesday morning at St. Patrick's church in this city, when the Rev. Fr. Neiman pronounced the words which joined the lives of Miss Elizabeth O'Riley and Mr. William Donahue, two well known young people of this county. Miss O'Riley is the daughter of Mrs. Margaret O'Riley, living west of town, and is a very highly accomplished and popular young lady. She is also one of our most successful school teachers, and will be greatly missed in the Nodaway county schools, where she has taught for the past eight years. Mr. Donahue is the son of William Donahue, living near Clyde. He is now employed by the hardware firm of Manchester & Dadds at Skidmore, which position he has held for the past five years. Mr. Donahue is an industrious and enterprising young man, who has tried to make the best of life's opportunities. The bride wore a beautiful wedding gown of white satin overlaid with white silk embroidered net with trimmings of pearl, with a white tulle veil, which was held in place by a wreath of white violets. She carried a large bouquet of bride's roses, also tied with white tulle. The bridesmaid wore a pretty gown of white crepe, daintily trimmed with yellow, with a large white face hat with trimmings of the same, and carried a large bouquet of yellow roses tied with yellow ribbon.

The bridal couple was attended by Miss Anna Dougan of this city and Mr. Edgar O'Riley, brother of the bride. They left on the 8 o'clock train for Kansas City, where they expect to visit a few days. From there they will go to visit various places before they return to their home in Skidmore.

A Small Fire Monday.

Fire was discovered in the chicken house of Jasper Seals, on South Depot street, in East Maryville, on Monday afternoon about 3:20 o'clock. The fire was put out by a number of men, and it was not necessary to call the fire department.

BERNEY HARRIS.

Maryville's Only One Priced Clothier.

FRANCIS IS THE MAN.

Mike Moran of St. Joseph Says Francis Can Capture Stone's Toga.

Former State Senator Mike Moran of St. Joseph, in Jefferson City Saturday on legal business, declared that former Governor David R. Francis of St. Louis is the only man in sight who could beat Senator William J. Stone for a re-nomination at the state primary next August.

"Governor Francis," said Moran, would carry every county in the Fourth congressional district over Stone except possibly Platte. He is the only man mentioned for senator who could do that as against Stone.

"Many of the circumstances that proved disadvantageous to Governor Francis in his race for the senate against Reed in 1910 are eliminated now and some of the factors that contribute to his defeat at that time are negligible qualities.

"In my judgment Francis would carry that portion of the state lying between the Kansas line on the west and the Chariton river on the east and north of the Missouri river, with the exception of Platte and one or two other counties.

"If Francis does not run there is no other man in sight or who has been mentioned in connection with the senatorship who could wrest that section of the state from Senator Stone.

"I hear that everywhere I go in travelling over the northwestern part of Missouri. The opinion there is widespread and growing that Francis is the one man who can defeat Stone. Our people are not talking much politics now except the senatorial succession. That they are interested even a year in advance of the primary is shown by the fact that it is being discussed everywhere up there."

Maurice Costello tonight at Fern.

RAIN THIS MONTH—PERHAPS.

Dry Weather Septembers Famous For Furnishing Large Amounts of Moisture.

A comparison of the rainfall of September of other dry years is at least hopeful, if it may be taken as a guide for this year. If the records can be taken that way, Maryville will have plenty of rain and cooler weather this month.

In the dry year of 1901 the rainfall for September amounted to 3.76 inches, being 2 of an inch more than normal. In the dry year of 1911, September rainfall was 3.93 inches, being .37 of an inch above normal. These two years are known as the driest years since the weather records have been

kept in the last twenty years.

And during the past twenty years there have been only four Septembers when the rainfall was less than two inches, and only two Septembers when it was less than an inch.

"Oh, You Flirt," "Head Hunters," at the Star theater tonight.

Children's Picnic Tomorrow.

The picnic for the children of school age of Maryville will be held tomorrow at the E. P. Powell grove. The Maryville band will furnish music during the afternoon. There will be twenty-five cars to take the children out and bring them back. All of the children are to meet at the library at 1 o'clock and will be taken from there.

Nodaway Valley Bank

Oldest Bank in the County

Capital and Surplus - \$125,000.00

SAVINGS DEPARTMENT

The officers of the Nodaway Valley Bank wish to announce the establishment of a Savings Department in connection with this institution.

This department will take care of your savings, paying interest semi-annually, and render every assistance in cultivating the habit of saving money.

No one need be ashamed to save money. No one need be ashamed to start with as little as a dollar. The habit of saving money, if persisted in, is bound to make for financial independence and to make a good citizen of the "man with the habit" as well.

You may start an account in our Savings Department with a dollar and make deposits from time to time. No red tape. No formality. Simplest thing in the world and think what it means.

The Savings Department of the Nodaway Valley Bank opened for business on

FRIDAY, AUGUST 22, 1913

Hours 9 a. m. to 3 p. m.

Don't overlook this invitation to start a Savings Account. Drop in next time you are passing and get started. We have a book for you. James B. Robinson, President. F. P. Robinson, Vice-Pres. J. D. Richey, Cashier.

Administrator's Sale

I will sell at the farm of the late R. G. Richey, 4 miles west and 1 1/4 miles south of Maryville on

Thursday, Sept. 11, 1913

Strengthen Weak Kidneys.

Don't suffer longer with weak kidneys. You can get prompt relief by taking Electric Bitters, that wonderful remedy praised by women everywhere. Start with a bottle today; you will soon feel like a new woman with ambition to work, without fear of pain. Mr. John Dowling of San Francisco writes: "Gratitude for the wonderful effect of Electric Bitters prompts me to write. It cured my wife when all else failed." Good for the liver as well. Nothing better for indigestion or biliousness. Price 50c and \$1.00 at the Orear-Henry Drug Co.—Advertisement.

Maurice Costello tonight at Fern.

Mrs. G. A. VanSteenbergh has returned from a ten weeks' stay in Benson, Ia., where she has been assisting in caring for her sister, Mrs. W. J. McAhern, who has been seriously ill for several months.

THINK THOMPSON WAS MURDERED

Coat and Hat of Grand Island Man in River at Kansas City.

Kansas City, Sept. 2.—A coat and a Panama hat, both of them bloody and cut as if with a sharp knife, which were found under the municipal wharf here, led the police to the theory that Paul H. Thompson, deputy fire commissioner of Nebraska, had been slain and his body thrown into the river. The blood on them had dried, but not more than a few hours, it is believed.

In the coat was found an undated letter addressed to Mrs. P. H. Thompson, Harney hotel, Omaha, and a letter from John M. Morehead, governor of Nebraska. A card also was found in the pocket, indicating Thompson was a member of a lodge in Grand Island, Neb. A program of a local theater was found in his pocket.

Mr. Thompson registered at a local hotel from Grand Island, Neb. He had not checked out, but he could not be found about the hotel.

An Automobile Accident.

An automobile accident on South Main street occurred Monday evening when, it is said, the U. S. Wright car and the Dr. Leach car ran together. No one was seriously hurt, but both cars were damaged somewhat, the Leach car being worse off than the other as it was a lighter car. The Wright car was driven by Miss Lola Wright and the Leach car by "Sunny" Vance, colored.

Miss Eva Montgomery went to St. Joseph Tuesday morning, after spending most of the summer with her sister, Mrs. S. P. Huston, living southwest of Maryville, and other relatives. Miss Montgomery will be principal of the Noyes school in St. Joseph this year.

Mrs. Robert Miller and children left Monday afternoon for their home in Collinsville, Okla., after a several weeks' visit in Maryville with Mr. Miller's mother, Mrs. Catherine Miller, and sister, Mrs. F. P. Robinson.

Maurice Costello tonight at Fern.

Miss Nora Ritze returned Sunday from a three weeks' outing at the lakes near St. Paul, Minn., and resumed work at the Farmers' Trust company Monday.

Mrs. D. E. Hotchkin and children went to Hopkins Tuesday noon on a visit to Mrs. Hotchkin's parents. Mr. and Mrs. J. L. Hepburn.

Mr. and Mrs. Thomas Clark left Tuesday afternoon for Los Angeles, Cal., where they will spend a month with their daughter, Mrs. Ethel Reed.

L. F. Palmer of Kansas City, manager for the Stoddard Library, is here now calling on our literary people.

Mrs. Paul Ream of Kansas City arrived Tuesday noon on a visit to her father, Joseph Jackson, Sr.

Miss Besse Scott went to Bedford, Ia., Tuesday, where she has a class in music.

Eph Andrews returned to St. Joseph Tuesday, after a short visit here.

John Evans went to Hopkins Tuesday noon on business.

DEATH RIDES IN AUTO RACE

Four Killed When as Many Speeding Cars Are Wrecked.

FIVE THOUSAND VIEW CRASH.

Driver Donovan, Swerving Car to Save Negro Boy, Tips Fence in Front of Following Machines at Nashville Fair Grounds.

Nashville, Tenn., Sept. 2.—Death claimed a heavy toll in the automobile speed races at the state fair grounds when four of the six high-powered cars entered in the twenty-five mile free-for-all race were wrecked on the far side of the mile track, in view of 5,000 people.

Four of the racing men were killed and three received minor injuries. Two of the cars with their drivers and mechanics crashed through the tangled wreckage of broken cars and maimed bodies at a speed of sixty miles an hour, escaping injury.

The dead: John W. Sherrill, driver of Buick car No. 3; Thomas P. Bridges, mechanic of Buick car No. 3; William Sherrill, driver of Stutz car No. 8; "Gooch" Brown, mechanic of Stutz car No. 8.

At Terrific Speed.

The six cars were speeding around the circular track at a terrific rate of speed on the fifth lap, with the Studebaker "Whiskbroom" carrying the ill-fated No. 13, about 200 yards in the lead of Mercer No. 2. Clyde Donovan, driving the "Whiskbroom," swerving to avoid striking a negro boy, turned into the fence. The wreck of the fence fell back onto the track, in the path of the following cars. Mercer No. 2 flashed by in an instant. The Stutz, running third, drove into the wreckage and turned a somersault, killing its crew. The Buick followed and struck with a terrible crash, turning over several times. The two occupants were dead when picked up.

ADDRESS BY LORD HALDANE

He Speaks of Higher Nationality, a Study in Law and Ethics.

Montreal, Sept. 2.—Rt. Hon. Richard Burdon Haldane, lord high chancellor of Great Britain, delivered the annual address at the meeting in this city last night of the American Bar association. His subject was "Higher Nationality, a Study in Law and Ethics," and he held the attention of his hearers until the end of his speech, which was only a little under 10,000 words long.

The lord chancellor began by emphasizing the fact that the United States, Canada and Great Britain, to gether form a unique group because of the common inheritance of traditions, surroundings and ideals, and particularly in the region of jurisprudence. He declared that lawyers are called on in days that lie in front to mould opinion and encourage the nations of this group to develop and recognize a reliable character in their obligations they assume toward each other.

The speaker argued that the great force that actuated mankind in observing the law was not fear of the officers of justice, but fear of public opinion, and that therefore public opinion tended, more than the arbitrary execution of justice, to restrain men from lawbreaking.

Successfully Treats Case of Rabies

St. Louis, Sept. 2.—Dr. Downey L. Harris, city bacteriologist, gave out details of a treatment by which he has cured a patient at the city hospital of a disease which has been diagnosed as rabies. When the patient, Charles Beardsley, twenty-seven years old, entered the hospital he seemed to be on the verge of convulsions that mark the final stage of the disease. Fifteen grains of quinine were injected under Beardsley's skin. Favorable symptoms followed, and another injection was given. Since then the patient has been given two injections of quinine a day.

Aged Prospector Bites Dynamite Cap

Melrose, Mont., Sept. 2.—Joseph Labister, aged eighty-eight, a pioneer prospector, committed suicide in his cabin here by biting a dynamite cap the explosion of which drove a piece of copper into his brain and broke his neck. For forty years Labister had searched for precious metals, and the fact that he recently allowed a mining claim valued at \$50,000 to slip through his hands is believed to have unsettled his mind.

Chicago Autos Kill 14 in Month.

Chicago, Sept. 2.—Fourteen persons were killed and sixty injured by auto mobiles in Chicago during August, according to the report of the coroner. This is three more fatalities from this cause than in the same period a year ago, and the number has steadily increased since 1907, when but one person was killed by a motor car. The automobile inquest is now the principal business of the coroner's office.

Racing Stallion Dies of Brain Fever

Hamline, Minn., Sept. 2.—Klamorgan, a four-year-old racing stallion owned by a Bushnell (Ill.) firm, is dead here as the result of brain fever. The animal was taken ill while on its way from the Des Moines (Ia.) fair to the Minnesota fair here and died shortly after arriving. The owners last week refused \$3,000 for the animal.

HAS SOME BIG APPLES.

J. V. Lynch of East-of-Town Has Apples That Weigh a Pound—Has a Good Fruit Farm.

J. V. Lynch, three miles east of town, brought to this office Tuesday some Wolf river apples that were raised on his farm. Some of the apples weigh a pound and the six that were brought to this office tipped the scale at nearly six pounds. The apples are for cooking purposes and he has five trees of them. His crop will make fifteen bushels this year. He also brought in some Lombard plums and also some peaches.

Mr. Lynch has a model fruit farm and has strawberries, raspberries and blackberries, in addition to apples, plums and peaches.

INCREASE IN ATTENDANCE.

But a Decrease in Circulation For August at the Library Over a Year Ago.

The monthly report of the Carnegie Library shows that during August: The total number of books and magazines loaned 1,408 Daily average 52 Number of readers in reading rooms 1,438 Daily average 48 Number of readers' cards issued 41 Total collections \$18.73 Compared with August, 1912, this shows a decrease in circulation of 236, an increase in attendance of 42 and an increase in collections of \$4.69.

DEATH OF JAMES BERRY.

Funeral Services to Be Held Thursday—Resident of Maryville For Fifteen Years.

James Berry, 40 years old, died at 1 o'clock this afternoon at his home, 1009 East First street. His death was due to cancer, and he had been very ill the last four weeks.

The funeral services, under the auspices of the I. O. O. F., will be held from the home at 2:30 o'clock Thursday. Rev. G. S. Cox will conduct the services.

Mr. Berry is survived by his wife and Berry is survived by his wife and daughters, Geneva and Audrey. He had lived in Maryville fifteen years, coming here from Indiana.

Maurice Costello tonight at Fern.

Boikow Boy Loses One Eye.

Lloyd Miller, nine-year-old son of Mr. and Mrs. Harry Miller of Boikow lost the sight of his right eye Sunday afternoon, when a piece of dynamite cap exploded and struck him. The boy and his brother were playing in a blacksmith shop, when the injured boy threw a dynamite cap into the forge. Both boys were struck by pieces of the cap. The most seriously injured of the boys was sent to Ensworth hospital in St. Joseph.

Is Watering His Orchard.

J. D. Ford of this city has a good apple orchard near Farnell. The drouth has been hurting his crop, so he has lately been watering the trees. Once a week, about thirty gallons of water are used for one tree. The water is secured from a large pond on his place and is then pumped into a 300-gallon tank which is connected with a large hose. Mr. Ford has twenty acres in Jonathan apple trees and the water is being used for these trees.

George Aley, J. B. Robinson and M. Ray went to St. Joseph Tuesday on business.

WHAT SAVED HER LIFE

Mrs. Martin Tells About a Painful Experience that Might Have Ended Seriously.

Rivesville, W. Va.—Mrs. Dora Martin, in a letter from Rivesville, writes: "For three years, I suffered with womanly troubles, and had pains in my back and side. I was nervous and could not sleep at night.

The doctor could not help me. He said I would have to be operated on before I could get better. I thought I would try using Cardui.

Now, I am entirely well. I am sure Cardui saved my life. I will never be without Cardui in my home. I recommend it to my friends."

For fifty years, Cardui has been relieving pain and distress caused by womanly trouble. It will surely help you. It goes to the spot—reaches the trouble—relieves the symptoms, and drives away the cause.

If you suffer from any symptoms of womanly trouble, take Cardui. Your druggist sells and recommends it. Get a bottle from him today.

N. B.—Write to: Ladies' Advisory Dept., Chattanooga Medicine Co., Chattanooga, Tenn., for Special Instructions, and 64-page book, "Home Treatment for Women," sent in plain wrapper, on request.

Sues On a Note.

A suit filed Tuesday was by Dent Rice Lumber company against Earl F. Addy on a note of \$60.

A CARLOAD OF

Bain Wagons

Just Arrived

The Bain Wagon is not the lowest priced wagon but it is an acknowledged fact that it is the best and is the standard by which all other wagons are compared and for service and utility will, in the end, prove your best wagon buy.

Farm Wagon Insurance

Not Fire—Service

The manufacturers of THE BAIN Wagon have built up a form of insurance which, in effect, is better than fire insurance. It insures the lasting quality of material and workmanship that goes into every Bain Wagon—it gives you the guarantee that protects your investment—they have to—because theirs is not a cheap wagon, it is a wagon built upon the honor of the name—THE BAIN, behind which is one of the largest wagon plants in America. This is one of the things that makes THE BAIN make good.

The Reason

If you could walk around the acres of lumber piles which form a large part of the raw material that has been air-drying for years—then go through the process of manufacture, you would understand why THE BAIN has earned the name of "The Best Wagon on Earth." You would know why theirs is the one wagon to stand up in all climates, no matter how arid. THE BAIN wagon is made from the highest grade of materials, by the best skilled mechanics. This has been the policy of THE BAIN Wagon Company for over sixty years.

Bain Wheels

The wheel is the most vital part of your wagon. The dodge method of construction has been adopted in the setting of the spokes into the hubs, giving a wider base of resistance and enabling the wagon to carry a heavier load than is possible under the old and prevailing style. Bain wheels are immersed in boiling linseed oil. The oil works its way into every pore and grain of the wood and forms a preservative against all future changes in climatic conditions.

Bain Axles

Bain axles are made of the best selected air-dried hickory constructed and braced so the fulcrum is transferred in all cases to the point of the greatest strain.

Bain Skeins

Bain skeins are made from special patterns, designed to admit as large an amount of the axle as possible into them. The steel skein is provided with a long sleeve that reaches under and fits closely to the axle, while the cast skein is reinforced by a truss rod.

Bain Box

The manufacturing of the Bain box is given as much care as the wheels and gear. The sides are made of yellow cottonwood, the bottoms of long-leaf yellow pine, the cleats being of oak and elm and attached with rivets. All the different models of wagons are equipped with all the latest features.

Come in and we will show you the merits of this wagon.

COMPROMISE ON
INCOME TAX RATENo Change on Incomes Below
Quarter Million.

HIGHER RATES TO BEGIN THERE

Incomes of Million Yearly and Above to Pay Six Per Cent—Proposed Compromise Not Satisfactory to Several Insurgent Senators.

Washington, Sept. 2.—An increase of the income tax on large fortunes only when the incomes run above \$250,000 annually is the basis of a compromise Democratic members of the senate finance committee will recommend to the caucus tonight.

The attitude of the insurgent Democrats was such as to indicate that they would not accept the arrangement without a fight and the caucus may run two or three days.

The finance committee has decided to leave the rates of the income tax as at present, up to the \$250,000 mark. The new taxes now proposed, in addition to the normal tax above the \$3,000 minimum, are:

Four per cent additional from \$250,000 to \$500,000; 5 per cent additional from \$500,000 to \$1,000,000, and 6 per cent above \$1,000,000. It is estimated there are 550 persons in this country with incomes between \$250,000 and \$500,000; 350 with incomes between \$500,000 and \$1,000,000, and more than 100 with incomes above \$1,000,000.

Cummins Has Amendment.

Senator Cummins introduced an amendment proposing a 10 per cent tax on all sales of stocks, bonds, cotton or agricultural products through organized stock or produce exchanges, "where the seller is not the actual owner of the thing sold." His amendment "was offered as a substitute for the Clark amendment."

Senator Cummins declared stock exchanges "sales" in New York last year were fully 95 per cent "fictitious."

"Not 10 per cent of the railroad stocks of the United States change hands each year," he said, "yet the so-called sales on the New York Stock exchange last year amounted to four-fifths of the entire stock issues of all the railroads of the United States. This does not include the sales at Philadelphia, Boston, Chicago and other cities."

"This short sale evil is the greatest menace now threatening the financial and industrial strength of this country," said Senator Cummins. "Some day we must undertake the task of suppressing these gigantic gambling transactions, and I believe this is the time to begin."

Senator Cummins said he did not seek to abolish stock exchanges, but wanted to make them "useful" to the country in the scores of actual trades.

BRADEN DIRECT SETS RECORD

Paces Mile in 2:02 1/4 in Free-for-All at Grand Circuit Meet.

Hartford, Conn., Sept. 2.—The Grand Circuit races at Charter Oak park were ushered in with some fast racing and exciting finishes and featured by the fastest heat of the season. Braden Direct set the new season's record of the first heat of the free-for-all pace when he stepped the mile in 2:02 1/4, and in the third heat his time was equalled when Earl, Jr., came through a winner and took first money. Tenara, the mare that has been the sensation of the season, won her fourth big race when she led the field in the historic Charter Oak stake, purse \$10,000, in straight heats.

Sleuth Goes Insane, Holds Up 5 Men.

Hartford, Conn., Sept. 2.—A bit of wild west tragedy was enacted in the railroad yards here when Isidor Proder, a railroad detective, suddenly insane, held up five railroad men in a switchman's shanty. When all had their hands uplifted, palms outward, he began firing. Of five bullets, only two found their marks, wounding J. J. Donlon and F. B. West. Proder backed out and officers later arrested him.

Motorcycle Racer Dies From Injuries.

Montgomery, Ala., Sept. 2.—Just after he had finished second in a motorcycle race at Vandiver park, Dan Morrison, an electrician, was catapulted over the outside enclosure of the park when his engine became clogged, and received injuries from which he died while being rushed to a hospital.

Kansas Convicts Baptized.

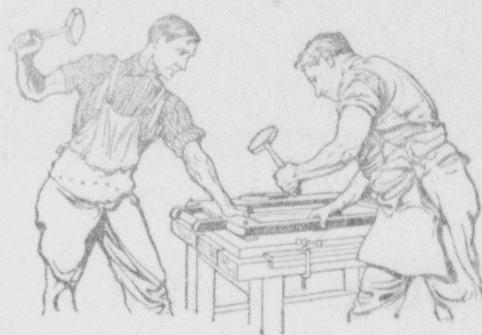

Leavenworth, Kan., Sept. 2.—Twenty-one Kansas convicts were baptized at the state prison, eleven by sprinkling and ten were immersed in the big tank in the prison laundry. This makes an even 100 souls saved in the prison, according to Warden Botkin.

Girl Killed in Auto Overturn.

Aurora, Ill., Sept. 2.—Miss Helen Gardner was killed and David L. Gardner, her father, a wealthy real estate dealer here, was badly injured when the automobile in which they were riding overturned on a fifteen foot embankment near Elgin.

Fire in Garment Factory Incendiary.

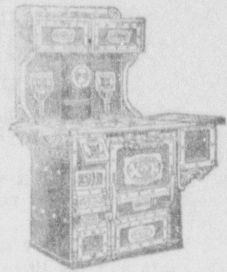

St. Louis, Sept. 2.—Police investigation of the fire in a downtown building occupied by garment making firms, against which a strike has been declared, disclosed that the building was fired from the outside.

Monarch Malleable Ranges

Are built for durability, efficient, service and economy in consumption of fuel. All of which is of vital importance to the housewife.

Top is riveted to the body. The oven is riveted to malleable angle and the angle in turn riveted to body of range, making an absolute air tight joint. The top is ground perfectly smooth never needs polishing. There are no bolts to become loosened by contraction or expansion in the Monarch Range. This is only possible in Malleable construction. We have a full line of these ranges on our floor and would be glad to show you their many points of merit.

G. W. HAGENBUCH,
General Agent,
905 Main St., Kansas City, Mo.THAW'S HEARING
TO BE PRIVATE

Speculators and Even Reporters to Be Barred from Chambers.

Sherbrooke, Que., Sept. 2.—Judge Hutchinson announced that the habeas corpus proceedings today in the case of Harry K. Thaw will be held in private. Not even William Travers Jerome, chief of the New York state interests, seeking Thaw's return to Matteawan, will be allowed in chambers.

He had weighed the matter carefully all day, noting meantime the ever-swelling crowd pouring into Sherbrooke for the fair. On the lips of nearly everyone was a sympathetic word for Thaw. Taking cognizance of this and of the outbreak of last Wednesday, when Thaw was cheered in court as a hero, the judge decided that the wisest course would be to exclude spectators.

Reporters are also to be barred, and while the lawyers may be present in a body, if they so desire, only two or so representing New York are to take part in the proceedings. They are Samuel Jacobs of Montreal, chief Canadian counsel for the state, and Hector Verret, appearing for the Matteawan asylum, from which Thaw escaped.

Thaw is to be driven from the jail to the court house in a closed carriage in charge of Governor La Force. Hundreds, who doubtless will line the streets along which he passes, will be denied a glimpse of Thaw unless he leans out of the cab window. In chambers it is expected the proceedings will be brief. There are three courses open to the judge. He can adjourn the hearing and ask both sides to submit briefs; he can sustain the writ, which will instantly make Thaw a free man and place him within the grasp of the immigration officers; or he can deny the writ and remand the prisoner back to jail to await disposition of his case by the king's bench in October.

Thaw's lawyers went forward with their plans for preventing his release on the writ of habeas corpus. If the writ is sustained there will be a dramatic scene in court, for the instant Thaw is a free man, E. Blake Robertson, acting for the immigration department, will step forward, tap him on the shoulder and announce: "I arrest you in the name of the king."

OMAHA LIVE STOCK MARKET

Cattle Trade Active, With Prices Steady to Ten Cents Higher.

Nodaway Valley Bank

Oldest Bank in the County

Capital and Surplus - - \$125,000.00

SAVINGS DEPARTMENT

The officers of the Nodaway Valley Bank wish to announce the establishment of a Savings Department in connection with this institution.

This department will take care of your savings, paying interest semi-annually, and render every assistance in cultivating the habit of saving money.

No one need be ashamed to save money. No one need be ashamed to start with as little as a dollar. The habit of saving money, if persisted in, is bound to make for financial independence and to make a good citizen of the "man with the habit" as well.

You may start an account in our Savings Department with a dollar and make deposits from time to time. No red tape. No formality. Simplest thing in the world and think what it means.

The Savings Department of the Nodaway Valley Bank opened for business on

FRIDAY, AUGUST 22, 1913

Hours 9 a. m. to 3 p. m.

Don't overlook this invitation to start a Savings Account. Drop in next time you are passing and get started. We have a book for you. James B. Robinson, President. F. P. Robinson, Vice-Pres. J. D. Richey, Cashier.

Administrator's Sale

I will sell at the farm of the late R. G. Richey, 4 miles west and 1 1/4 miles south of Maryville on

Thursday, Sept. 11, 1913

Nothing better for indigestion or biliousness. Price 50c and \$1.00 at the Orear-Henry Drug Co.—Advertisement.

Maurice Costello tonight at Fern.

Mrs. G. A. VanSteenbergh has returned from a ten weeks' stay in Benson, Ia., where she has been assisting in caring for her sister, Mrs. W. J. McAhern, who has been seriously ill for several months.

THINK THOMPSON WAS MURDERED

Coat and Hat of Grand Island Man in River at Kansas City.

Kansas City, Sept. 2.—A coat and a Panama hat, both of them bloody and cut as if with a sharp knife, which were found under the municipal wharf here, led the police to the theory that Paul H. Thompson, deputy fire commissioner of Nebraska, had been slain and his body thrown into the river. The blood on them had dried, but not more than a few hours, it is believed.

In the coat was found an undated letter addressed to Mrs. P. H. Thompson, Harney hotel, Omaha, and a letter from John M. Morehead, governor of Nebraska. A card also was found in the pocket, indicating Thompson was a member of a lodge in Grand Island, Neb. A program of a local theater was found in his pocket.

Mr. Thompson registered at a local hotel from Grand Island, Neb. He had not checked out, but he could not be found about the hotel.

An Automobile Accident.

An automobile accident on South Main street occurred Monday evening when, it is said, the U. S. Wright car and the Dr. Leach car ran together. No one was seriously hurt, but both cars were damaged somewhat, the Leach car being worse off than the other as it was a lighter car. The Wright car was driven by Miss Lola Wright and the Leach car by "Sunny" Vance, colored.

Miss Eva Montgomery went to St. Joseph Tuesday morning, after spending most of the summer with her sister, Mrs. S. P. Huston, living southwest of Maryville, and other relatives. Miss Montgomery will be principal of the Noyes school in St. Joseph this year.

Mrs. Robert Miller and children left Monday afternoon for their home in Collinsville, Okla., after a several weeks' visit in Maryville with Mr. Miller's mother, Mrs. Catherine Miller, and sister, Mrs. F. P. Robinson.

Maurice Costello tonight at Fern.

Miss Nora Ritze returned Sunday from a three weeks' outing at the lakes near St. Paul, Minn., and resumed work at the Farmers' Trust company Monday.

Mrs. D. E. Hotchkin and children went to Hopkins Tuesday noon on a visit to Mrs. Hotchkin's parents. Mr. and Mrs. J. L. Hepburn.

Mr. and Mrs. Thomas Clark left Tuesday afternoon for Los Angeles, Cal., where they will spend a month with their daughter, Mrs. Ethel Reed.

L. F. Palmer of Kansas City, manager for the Stoddard Library, is here now calling on our literary people.

Mrs. Paul Ream of Kansas City arrived Tuesday noon on a visit to her father, Joseph Jackson, Sr.

Miss Besse Scott went to Bedford, Ia., Tuesday, where she has a class in music.

Eph Andrews returned to St. Joseph Tuesday, after a short visit here.

John Evans went to Hopkins Tuesday noon on business.

DEATH RIDES IN AUTO RACE

Four Killed When as Many Speeding Cars Are Wrecked.

FIVE THOUSAND VIEW CRASH.

Driver Donovan, Swerving Car to Save Negro Boy, Tips Fence in Front of Following Machines at Nashville Fair Grounds.

Nashville, Tenn., Sept. 2.—Death claimed a heavy toll in the automobile speed races at the state fair grounds when four of the six high-powered cars entered in the twenty-five mile free-for-all race were wrecked on the far side of the mile track, in view of 5,000 people.

Four of the racing men were killed and three received minor injuries. Two of the cars with their drivers and mechanics crashed through the tangled wreckage of broken cars and maimed bodies at a speed of sixty miles an hour, escaping injury.

The dead: John W. Sherrill, driver of Buick car No. 3; Thomas P. Bridges, mechanic of Buick car No. 3; William Sherrod, driver of Stutz car No. 8; "Gooch" Brown, mechanic of Stutz car No. 8.

At Terrific Speed.

The six cars were speeding around the circular track at a terrific rate of speed on the fifth lap, with the Studebaker "Whiskbroom" carrying the ill-fated No. 13, about 200 yards in the lead of Mercer No. 2. Clyde Donovan, driving the "Whiskbroom," swerving to avoid striking a negro boy, turned into the fence. The wreck of the fence fell back onto the track, in the path of the following cars. Mercer No. 2 flashed by in an instant. The Stutz, running third, drove into the wreckage and turned a somersault, killing its crew. The Buick followed and struck with a terrific crash, turning over several times. The two occupants were dead when picked up.

ADDRESS BY LORD HALDANE

He Speaks of Higher Nationality, a Study in Law and Ethics.

Montreal, Sept. 2.—Rt. Hon. Richard Burdon Haldane, lord high chancellor of Great Britain, delivered the annual address at the meeting in this city last night of the American Bar association. His subject was "Higher Nationality, a Study in Law and Ethics," and he held the attention of his hearers until the end of his speech, which was only a little under 10,000 words long.

The lord chancellor began by emphasizing the fact that the United States, Canada and Great Britain, together form a unique group because of the common inheritance of traditions, surroundings and ideals, and particularly in the region of jurisprudence. He declared that lawyers are called on in days that lie in front to mould opinion and encourage the nations of this group to develop and recognize a reliable character in the obligations they assume toward each other.

The speaker argued that the great force that actuated mankind in observing the law was not fear of the officers of justice, but fear of public opinion, and that therefore public opinion tended, more than the arbitrary execution of justice, to restrain men from lawbreaking.

Successfully Treats Case of Rabies

St. Louis, Sept. 2.—Dr. Downey L. Harris, city bacteriologist, gave out details of a treatment by which he has cured a patient at the city hospital of a disease which has been diagnosed as rabies. When the patient, Charles Beardsley, twenty-seven years old, entered the hospital he seemed to be on the verge of convulsions that mark the final stage of the disease. Fifteen grains of quinine were injected under Beardsley's skin. Favorable symptoms followed, and another injection was given. Since then the patient has been given two injections of quinine a day.

Aged Prospector Bites Dynamite Cap

Melrose, Mont., Sept. 2.—Joseph Labister, aged eighty-eight, a pioneer prospector, committed suicide in his cabin here by biting a dynamite cap the explosion of which drove a piece of copper into his brain and broke his neck. For forty years Labister had searched for precious metals, and the fact that he recently allowed a mining claim valued at \$50,000 to slip through his hands is believed to have unsettled his mind.

Chicago Autos Kill 14 in Month.

Chicago, Sept. 2.—Fourteen persons were killed and sixty injured by automobiles in Chicago during August, according to the report of the coroner. This is three more fatalities from this cause than in the same period a year ago, and the number has steadily increased since 1907, when but one person was killed by a motor car. The automobile inquest is now the principal business of the coroner's office.

Racing Stallion Dies of Brain Fever

Hamline, Minn., Sept. 2.—Klamor, a four-year-old racing stallion owned by a Bushnell (Ill.) firm, is dead here as the result of brain fever. The animal was taken ill while on its way from the Des Moines (Ia.) fair to the Minnesota fair here and died shortly after arriving. The owners last week refused \$3,000 for the animal.

HAS SOME BIG APPLES.

J. V. Lynch of East-of-Town Has Apples That Weigh a Pound—Has a Good Fruit Farm.

J. V. Lynch, three miles east of town, brought to this office Tuesday some Wrought river apples that were raised on his farm. Some of the apples weigh a pound and the six that were brought to this office tipped the scale at nearly six pounds. The apples are for cooking purposes and he has five trees of them. His crop will make fifteen bushels this year. He also brought in some Lombard plums and also some peaches.

Mr. Lynch has a model fruit farm and has strawberries, raspberries and blackberries, in addition to apples, plums and peaches.

INCREASE IN ATTENDANCE.

But a Decrease in Circulation For August at the Library Over a Year Ago.

The monthly report of the Carnegie library shows that during August:

The total number of books and magazines loaned 1,408

Daily average 52

Number of readers in reading rooms 1,438

Daily average 48

Number of readers' cards issued 41

Total collections \$18.73

Compared with August, 1912, this shows a decrease in circulation of 236,

an increase in attendance of 42 and an increase in collections of \$4.69.

DEATH OF JAMES BERRY.

Funeral Services to Be Held Thursday—Resident of Maryville For Fifteen Years.

James Berry, 40 years old, died at 1 o'clock this afternoon at his home, 1009 East First street. His death was due to cancer, and he had been very ill the last four weeks.

The funeral services, under the auspices of the I. O. O. F., will be held from the home at 2:30 o'clock Thursday. Rev. G. S. Cox will conduct the services.

Mr. Berry is survived by his wife and Berry is survived by his wife and daughters, Geneva and Audrey. He had lived in Maryville fifteen years, coming here from Indiana.

Maurice Costello tonight at Fern.

Bolekov Boy Loses One Eye.

Lloyd Miller, nine-year-old son of Mr. and Mrs. Harry Miller of Bolekov lost the sight of his right eye Sunday afternoon, when a piece of dynamite cap exploded and struck him. The boy and his brother were playing in a blacksmith shop, when the injured boy threw a dynamite cap into the forge. Both boys were struck by pieces of the cap. The most seriously injured of the boys was sent to Emsworth hospital in St. Joseph.

Is Watering His Orchard.

J. D. Ford of this city has a good apple orchard near Parnell. The drought has been hurting his crop, so he has lately been watering the trees. Once a week, about thirty gallons of water are used for one tree. The water is secured from a large pond on his place and is then pumped into a 300-gallon tank which is connected with a large hose. Mr. Ford has twenty acres in Jonathan apple trees and the water is being used for these trees.

George Aley, J. B. Robinson and M. Ray went to St. Joseph Tuesday on business.

WHAT SAVED HER LIFE

Mrs. Martin Tells About a Painful Experience that Might Have Ended Seriously.

Riversville, W. Va.—Mrs. Dora Martin, in a letter from Riversville, writes: "For three years, I suffered with womanly troubles, and had pains in my back and side. I was nervous and could not sleep at night.

The doctor could not help me. He said I would have to be operated on before I could get better. I thought I would try using Cardui.

Now, I am entirely well. I am sure Cardui saved my life. I will never be without Cardui in my home. I recommend it to my friends."

For fifty years, Cardui has been relieving pain and distress caused by womanly trouble. It will surely help you. It goes to the spot—reaches the trouble—relieves the symptoms, and drives away the cause.

If you suffer from any symptoms of womanly trouble, take Cardui. Your druggist sells and recommends it. Get a bottle from him today.

N. B.—Write to: Ladies' Advisory Dept., Chattanooga Medicine Co., Chattanooga, Tenn., for Special Instructions, and 64-page book, "Home Treatment for Women," sent in plain wrapper, on request.
